"Please forward this to a fellow horse lover!"

E-news August 2012

COLIC SURVEY ENDING SOON!

Colic is the number one killer of horses (other than old age!) As a result, Equine Guelph is developing a new colic prevention program and we need your help!

Take the 15 - 20 minute survey! Your input and experience with colic is crucial in helping us better understand current colic management practices. This will assist us in developing important colic prevention programs.

Participants of the survey are entered into a draw for a chance to **WIN** one of two registrations to Equine Guelph's upcoming Colic Prevention eWorkshop!

For more information on Equine Guelph's colic prevention program, please visit:
<http://equineguelph.ca/education/colic.php>

WHAT IS LIVING IN YOUR HORSE'S GUT?

Thanks to a grant from the Knowledge Translation and Transfer Program under the OMAFRA-U of G Partnership, Equine Guelph launches its eighth "[Report on Research](#)" and "[Help for Horse Owners](#)" video series featuring University of Guelph Researcher, Dr. Scott Weese discussing research findings on identifying the bacteria living in the horse gut.
