Welcome to this month's edition of Equine Guelph E-News.

Dear Equine Enthusiast,

March is Colic Prevention Tip - equi@uoguelph.ca

A special presentation was held at the University of Guelph on March 9th, 2013, delivering current research and findings to help veterinarians build a horse owner's knowledge and confidence. The Equine Guelph Colic Workshop for Veterinarians will give attendees a better understanding of the latest insights into colic. The workshop is designed to meet the needs of those engaged in the care of horses, and the discussion includes the latest developments in their clinical practice.

The Equine Guelph Colic Workshop for Veterinarians will give attendees a better understanding of the latest insights into colic. The workshop is designed to meet the needs of those engaged in the care of horses, and the discussion includes the latest developments in their clinical practice.

Dr. Steve Elliott, Global Product Director at Alltech, outlining emerging research using nutritional biotechnologies to improve gut health.

Elliott, Global Product Director at Alltech, outlining emerging research using nutritional biotechnologies to improve gut health. Morning came to a close with Dr. Steve Elliott, Global Product Director at Alltech, outlining emerging research using nutritional biotechnologies to improve gut health.

The survey was completed by over 1,200 respondents across Canada. Ontario respondents were the highest in number, followed by British Columbia, Alberta, and New Brunswick. The majority of respondents are in the 26-54 age group. The survey was available in English and French.

OVC researchers speak at their current projects.

The workshop is designed to meet the needs of those engaged in the care of horses, and the discussion includes the latest developments in their clinical practice.

Key findings from the survey include:

- 20% of respondents were informed about colic prevention programs by their veterinarian.
- 43% of respondents stated they would use a colic prevention product for their horse.
- 44% of respondents stated they would use a colic prevention product for their horse.

Stay tuned in 2013 for monthly tips to help you reduce your risk of colic.

Anyone who would like to learn more about the best practices for handling horses safely is encouraged to sign up early as space is limited.
