

# Equine Anatomy

## A Guided Tour of Equine Anatomy

is a dissection workshop to understand equine anatomy first hand. Participants will have an opportunity to take part in a guided examination of the anatomy of a horse. An overview of the large muscle groups of the neck, trunk and legs is followed by an exploration of the abdomen and chest. The latter part of the laboratory is designed to allow individual students to explore their areas of interest in further detail.

**When:** April 19, 2014   **Time:** 9:30 am – 4:30 pm

**Where:** Ontario Veterinary College

**Cost:** \$ 280 before Mar 30, 2014 \$300 after

Artwork provided by Ruth Bennis

**Advanced Equine Anatomy** is offered following the Guided Tour of Equine Anatomy workshop and continues the hands-on investigation of the anatomy of the horse. During the day participants will be able to study specific systems in the horse such as the mechanics of the leg or the complexities of the respiratory system. This in-depth analysis will provide you with the opportunity to learn more about how a horse functions.

**When:** April 20, 2014   **Time:** 9:30 am – 4:30 pm

**Where:** Ontario Veterinary College

**Cost:** \$ 300 before Mar 30, 2014 \$320 after

This unique opportunity is hosted by Equine Guelph. Supplies and refreshments are covered in the cost of registration.
